

I listen to K-Love on 90.5 on my FM radio while at work and in my car. K-Love programming of christian radio serves myself and local community with uplifting music. Each semi-year, our community through donation and support provides more than enough money and community support to keep K-Love broadcasting in the local area. If K-Love were to be displaced by an LPFM broadcaster providing other programming, the spriritual and uplifting music that I and my local community have enjoyed from K-Love will be lost. As stated above, if you researched the records based upon our area for support through donations to this broadcast, the public interest demands for the continued programming of K-Love as transmitted on 90.5FM.
